- Company announced intent to pursue separation of media and entertainment and publishing businesses

NEW YORK, NY, August 8, 2012 - News Corporation (NASDAQ: NWS, NWSA; ASX: NWS, NWSLV) today reported financial results for the three months and full year ending June 30, 2012.

Commenting on the results, Chairman and Chief Executive Officer Rupert Murdoch said:
"We are proud of the full year financial growth achieved over the last twelve months, led by our Cable Network Programming and Filmed Entertainment segments. Not only did we execute on our operating plan and deliver on our financial targets, we returned over $\$ 5$ billion to shareholders through an aggressive buyback program and dividends. In addition, significant progress has been made in opportunistically addressing the Company's non-consolidated assets, as demonstrated by the purchase of Fox Pan American Sports, the sale of NDS and the announced intention to purchase the remaining ownership stake of ESPN STAR Sports and Consolidated Media Holdings.
"Our Company has continued to innovate, grow and consistently adapt to the rapidly changing media industry landscape. We find ourselves in the middle of great change, driven by shifts in technology, consumer behavior, advertiser demands and economic uncertainty and change brings about great opportunity. News Corporation is in a strong operational, strategic and financial position, which should only be enhanced by the proposed separation of the media and entertainment and publishing businesses."

## Full Year Company Results

The Company reported annual revenue of $\$ 33.7$ billion, a $\$ 301$ million, or $1 \%$, increase over the $\$ 33.4$ billion of revenue reported a year ago. The annual revenue increase was led by $14 \%$ growth at the Company's Cable Network Programming segment, partially offset by declines primarily at the Company's Publishing and Other segments.

The Company reported annual total segment operating income ${ }^{(3)}$ of $\$ 5.4$ billion compared to $\$ 4.9$ billion reported a year ago. This increase was driven by operating income improvements at nearly all of the Company's segments, led by a $\$ 535$ million, or $19 \%$, increase at the Cable Network Programming segment and a $\$ 205$ million, or $22 \%$, increase at the Filmed Entertainment segment. These improvements were partially offset by decreases at the Publishing segment, reflecting advertising weakness at the international newspaper and integrated marketing services businesses, and the absence of contributions from The News of the World. The full year results included a $\$ 224$ million charge related to the costs of the ongoing investigations initiated upon the closure of The News of the World. The prior year results included a $\$ 125$ million charge at the Company's integrated marketing services business related to the settlement of litigation. Excluding these charges from both years, respectively, this year's adjusted total segment operating income of $\$ 5.6$ billion increased $\$ 628$ million, or $13 \%$, from $\$ 5.0$ billion in the prior year.

The Company reported annual net income of $\$ 1.2$ billion ( $\$ 0.47$ per share), compared to net income of $\$ 2.7$ billion ( $\$ 1.04$ per share) reported in the prior year. The full year results included a $\$ 3.0$ billion pre-tax impairment and restructuring charge primarily related to the Company's publishing businesses. This charge was partially offset by a $\$ 270$ million pre-tax gain from the Company's participation in British Sky Broadcasting's ("BSkyB") share repurchase program, which is reflected in Equity earnings of affiliates. The prior year results included a $\$ 254$ million loss, net of tax resulting from the Company's sale of Myspace. Excluding the net income effects of these items, the charge related to the investigations in the U.K., and comparable items in both years, adjusted earnings per share was $\$ 1.41$ compared with the adjusted year-ago result of $\$ 1.18$.

## Fourth Quarter Company Results

The Company reported quarterly revenue of $\$ 8.4$ billion, as compared to the $\$ 9.0$ billion of revenue reported a year ago. The $15 \%$ growth at the Company's Cable Network Programming segment was more than offset by declines at the Company's remaining segments.

The Company reported quarterly total segment operating income of $\$ 1.2$ billion, a $\$ 167$ million decrease compared to $\$ 1.4$ billion reported a year ago. The increase at the Cable Network Programming segment of $\$ 161$ million, or $26 \%$, was more than offset by decreases at the Company's remaining segments. The quarterly results included a $\$ 57$ million charge related to the costs of the ongoing investigations initiated upon the closure of The News of the World.

The Company reported quarterly net loss of $\$ 1.6$ billion (- $\$ 0.64$ per share) as compared to net income of $\$ 683$ million ( $\$ 0.26$ per share) reported in the prior year quarter. The quarterly results included a $\$ 2.9$ billion pre-tax impairment and restructuring charge primarily related to the Company's publishing businesses, as well as $\$ 15$ million of pre-tax loss in Other, net, which includes a loss on the sale of property in the U.K. These charges were partially offset by a $\$ 115$ million pre-tax gain from the Company's participation in the BSkyB share repurchase program. The prior year quarterly results included a $\$ 254$ million loss, net of tax resulting from the Company's sale of Myspace. Excluding the net income effects of these items, the charge related to the investigations in the U.K., and comparable items in both years, quarterly adjusted earnings per share was $\$ 0.32$ compared with the adjusted prior year quarter result of $\$ 0.35$.
${ }^{(3)}$ Total segment operating income is a non-GAAP financial measure. See page 14 for a description of total segment operating income and for a reconciliation of total segment operating income to income before income tax expense.

Cable Network Programming reported annual segment operating income of $\$ 3.3$ billion, a $\$ 535$ million, or $19 \%$, increase over the prior year, driven by a $14 \%$ increase in revenue. Operating income contributions from the domestic channels increased $21 \%$, underpinned by growth at the Regional Sports Networks ("RSNs"), Fox News Channel and the FX Network. The Company's international cable channels grew earnings $16 \%$, reflecting strong growth in Latin America and Asia.

Affiliate revenue growth of $12 \%$ at the domestic cable channels primarily reflects higher rates at all domestic networks, led by growth at the RSNs and Fox News Channel. International cable channels' affiliate revenues increased $27 \%$ over the prior year. Nearly two-thirds of the international increase primarily reflects organic growth at the Fox International Channels in Latin America and Asia, with the remaining portion of the international affiliate revenue growth attributable to the consolidation of the Fox Pan American Sports network.

Advertising revenue at the domestic cable channels grew 9\% in fiscal 2012 over the prior year, reflecting growth at nearly all domestic networks led by growth at the FX Network, Fox News Channel and the National Geographic Channels. The international cable channels' advertising revenue grew $13 \%$ over the prior year, primarily due to improving advertising markets and viewership trends in Latin America, Asia and India.

In fiscal 2012, expenses at Cable Network Programming grew $11 \%$ over the prior year, due to increased programming costs including rights fees for the launch of the Ultimate Fighting Championship, as well as increased expenses associated with the consolidation of the Fox Pan American Sports network and the launch of new sports networks in Brazil and San Diego.

## Fourth Quarter Segment Results

Cable Network Programming reported quarterly segment operating income of $\$ 792$ million, a $\$ 161$ million, or $26 \%$, increase over the prior year quarter, driven by a $15 \%$ increase in revenue. Operating income contributions from the domestic channels increased $24 \%$, led by growth at Fox News Channel and the FX Network. The Company's international cable channels grew earnings $31 \%$, reflecting growth at both the Fox International Channels and STAR.

Affiliate revenue grew $16 \%$ and $31 \%$ at the domestic and international cable channels, respectively. Domestic network growth reflects higher rates across all networks, led by growth at the RSNs and Fox News Channel. Nearly $45 \%$ of the international cable channels' affiliate revenue increase was led by organic growth at the Fox International Channels in Latin America and Asia. The remaining portion of the international affiliate revenue growth reflects the consolidation of the Fox Pan American Sports network.

Advertising revenue at the domestic cable channels grew $5 \%$ in the quarter over the prior year period, led by growth at the RSNs and the National Geographic Channels. The international cable channels' advertising revenue grew $18 \%$ over the prior year quarter, primarily due to improving advertising markets and viewership trends, with particular strength in India and Latin America, which benefitted from the consolidation of the Fox Pan American Sports network.

Expenses at Cable Network Programming grew $11 \%$ in the quarter over the prior year period, due to increased programming costs including rights fees reflecting the timing of games resulting from the NBA lockout and rights fees for the launch of the Ultimate Fighting Championship, as well as increased expenses associated with the consolidation of the Fox Pan American Sports network and the launch of new sports networks in Brazil and San Diego.

## FILMED ENTERTAINMENT

## Full Year Segment Results

Full year segment operating income increased $\$ 205$ million, or $22 \%$, over the prior year to $\$ 1.1$ billion. The growth was driven by a strong release slate including the successful worldwide theatrical and home entertainment performances of Rise of the Planet of the Apes, Alvin and the Chipmunks: Chipwrecked and The Descendants, and home entertainment performances of Rio, X-Men: First Class and Mr. Popper's Penguins. The year also benefitted from increased operating profit at the television production studios led by the growth of digital distribution revenue from the licensing of content to Netflix and Amazon, as well as an increase in license fees for How I Met Your Mother.

## Fourth Quarter Segment Results

Filmed Entertainment reported quarterly segment operating income of $\$ 120$ million, compared to $\$ 210$ million reported in the same period a year ago. The $\$ 90$ million decline was due to lower theatrical and home entertainment revenues due to the timing, in the prior year quarter, of the successful worldwide theatrical performance of Rio (released at the beginning of the fiscal 2011 fourth quarter) and the home entertainment performance of Black Swan and The Chronicles of Narnia: Voyage of the Dawn Treader. Quarterly results also include theatrical release costs for the successful releases of Prometheus, which has grossed over $\$ 300$ million in worldwide box office to date, and of Ice Age: Continental Drift, which was released domestically after fiscal year end and has grossed over $\$ 715$ million in worldwide box office to date, setting records for highest opening weekend ever in many international territories.

## TELEVISION

## Full Year Segment Results

Full year segment operating income of $\$ 706$ million, increased $\$ 25$ million versus a year ago. The increase was driven by a doubling of retransmission consent revenues, partially offset by lower political advertising revenue at the local television stations and the absence of the prior year's broadcast of the National Football League Super Bowl XLV. Excluding the impact of the Super Bowl broadcast, national advertising revenues increased over the prior year reflecting the stronger fall schedule led by The X-Factor and New Girl being partially offset by lower American Idol ratings.

## Fourth Quarter Segment Results

Television reported quarterly segment operating income of $\$ 213$ million, a decrease of $\$ 20$ million versus the same period a year ago. This decline reflects a doubling of retransmission consent revenues being more than offset by lower national advertising revenues primarily driven by lower American Idol ratings.

## DIRECT BROADCAST SATELLITE TELEVISION

## Full Year Segment Results

SKY Italia generated annual segment operating income of $\$ 254$ million, a $\$ 22$ million, or $9 \%$, increase compared to the prior year. The improvement was due to lower programming costs resulting from the absence of FIFA World Cup costs and lower marketing costs related to the prior year's rebranding campaign. Local currency revenue for the year was consistent with the prior year. SKY Italia's year-end subscriber base declined to 4.9 million due to the net reduction of approximately 71,000 subscribers during the year, reflecting the continued challenging economic environment in Italy.

## Fourth Quarter Segment Results

SKY Italia generated quarterly segment operating income of $\$ 89$ million, compared to $\$ 145$ million of operating income reported in the same period a year ago. Quarterly local currency revenue was down 5\% from the corresponding period of the prior year driven by lower subscription revenues reflecting a lower subscriber base. The quarter also reflects increased expenses related to subscriber retention efforts. SKY Italia experienced a net reduction of approximately 42,000 subscribers during the quarter.

## PUBLISHING

## Full Year Segment Results

Publishing reported annual segment operating income of $\$ 597$ million, a $\$ 267$ million decrease compared to the $\$ 864$ million reported a year ago, which included a $\$ 125$ million litigation settlement charge at the integrated marketing services business. Excluding this charge, segment operating income decreased $\$ 392$ million from last year driven by advertising revenue declines at the Australian newspapers, integrated marketing services business and U.K. newspapers, as well as the absence of contributions from the closure of The News of the World in the U.K. The decline was partially offset by improved contributions from Dow Jones, driven by higher profits at the Wall Street Journal.

## OTHER

## Full Year Segment Results

The Other segment reported an annual operating loss of $\$ 605$ million as compared to an operating loss of $\$ 614$ million in the prior year. The benefit from the absence of results from disposed businesses, including Myspace, was substantially offset by the inclusion of the costs of the ongoing investigations initiated upon the closure of The News of the World.

## Fourth Quarter Segment Results

The Other segment reported a quarterly segment operating loss of $\$ 168$ million versus a loss of $\$ 137$ million reported in the same period a year ago. On June 28, 2012, News Corporation announced that it intends to pursue the separation of its publishing and its media and entertainment businesses into two distinct publicly traded companies. The global media and entertainment company would consist of the Company's cable and television assets, filmed entertainment, and direct satellite broadcasting businesses. The global publishing company that would be created through the proposed transaction would consist of the Company's current publishing businesses, as well as its education division. Following the separation, each company would maintain two classes of common stock: Class A Common and Class B Common Voting Shares. The separation is expected to be completed in approximately one year. In addition to final approval from the Board of Directors and stockholder approval, the completion of the separation will be subject to receipt of regulatory approvals, opinions from tax counsel and favorable rulings from certain tax jurisdictions regarding the tax-free nature of the transaction to the Company and to its stockholders, further due diligence as appropriate, and the filing and effectiveness of appropriate filings with the SEC. There can be no assurances given that the separation of the Company's businesses as described will occur.

EARNINGS RELEASE FOR THE YEAR AND QUARTERENDED JUNE 30,2012

## NOTE 1 - TOTAL SEGMENT OPERATING INCOME AND SEGMENT OPERATING INCOME BEFORE DEPRECIATION AND AMORTIZATION

The Company evaluates the performance of its operating segments based on segment operating income, and management uses total segment operating income as a measure of the performance of operating businesses separate from non-operating factors. Total segment operating income and segment operating income before depreciation and amortization are non-GAAP measures and should be considered in addition to, not as a substitute for, net income, cash flow and other measures of financial performance reported in accordance with GAAP. In addition, these measures do not reflect cash available to fund requirements. These measures exclude items, such as impairment and restructuring charges, which are significant components in assessing the Company's financial performance. Segment operating income before depreciation and amortization also excludes depreciation and amortization which are also significant components in assessing the Company's financial performance.

Management believes that total segment operating income and segment operating income before depreciation and amortization are appropriate measures for evaluating the operating performance of the Company's business and provide investors and equity analysts a measure to analyze operating performance of the Company's business and enterprise value against historical data and competitors' data. Total segment operating income and segment operating income before depreciation and amortization is the primary measure used by our chief operating decision maker to evaluate the performance of and allocate resources to the Company's business segments.

Total segment operating income does not include: Impairment and restructuring charges, Loss on the disposition of discontinued operations, Equity earnings of affiliates, Interest expense, net, Interest income, Other, net, Income tax expense and Net income attributable to noncontrolling interests.

Segment operating income before depreciation and amortization is defined as segment operating income plus depreciation and amortization and the amortization of cable distribution investments and eliminates the variable effect across all business segments of depreciation and amortization. Depreciation and amortization expense includes the depreciation of property and equipment, as well as amortization of finite-lived intangible assets. Amortization of cable distribution investments represents a reduction against revenues over the term of a carriage arrangement and, as such, it is excluded from segment operating income before depreciation and amortization.

## NOTE 2 - ADJUSTED NET INCOME AND ADJUSTED EPS

The calculation of net income and earnings per share excluding Segment operating profit adjustments, Impairment and restructuring charges, Equity affiliate adjustments, "Other, net", and Loss on disposal of discontinued operations, net of tax ("adjusted net income and adjusted diluted earnings per share") may not be comparable to similarly titled measures reported by other companies, since companies and investors may differ as to what type of events warrant adjustment. Adjusted net income and adjusted diluted earnings per share are not measures of performance under generally accepted accounting principles and should not be construed as substitutes for consolidated net income and earnings per share as determined under GAAP as a measure of performance. However, management uses these measures in comparing the Company's historical performance and believes that they provide meaningful and comparable information to investors to assist in their analysis of our performance relative to prior periods and our competitors.

The Company uses adjusted net income and adjusted diluted earnings per share to evaluate the performance of the Company's operations exclusive of certain items that impact the comparability of results from period to period.

The following tables reconcile reported net income and reported diluted earnings per share ("EPS") to adjusted net income and adjusted diluted earnings per share for the three and twelve months ended June 30, 2012 and 2011.
